

B Naveen Kumar
Data Engineering Specialist
+91 9951226144 • bnr1176@gmail.com

Summary

- I have 12+ years of ETL Development experience as Informatica PowerCenter/Informatica Cloud developer (IICS).
- Good experience in Analysis, Design, Development, Testing and Implementation of business application systems for Banking, Pharmaceutical, healthcare and Telecom Industries.
- Good experience in snowflake Datawarehouse and AWS Cloud.
- Self- motivated Team performers with different ETL Tools experience.

Skills

ETL Design and development with ETL Tools, Informatica PowerCenter, Informatica cloud (IICS), and Snowflake data warehousing, SQL for data Analysis, Unix and knowledge on Azure Databricks, Python and .

Experience

Accenture Solutions pvt, ltd. 11/2013 - Present

KAISER PERMANENTE 06/2023 - Present

Data Engineering Specialist

- Participated in User meetings, gathering requirements, discussing the issues to be resolved.
- Performed Data Analysis and Translated user inputs into ETL design docs.
- Architected and implemented a reusable automation framework to support user-specific requirements and improve development efficiency. Extensively used Informatica cloud for extraction, transformation and loading process.
- Analyzed the STM sheet for mapping between source and target columns, prepare the mappings for it.
- Design, Development, Testing and Implementation of ETL Processes using Informatica cloud
- Implemented SCD type2 using checksum functionality for the dimensions.
- Optimized ETL mappings by applying performance techniques to reduce the time for data loading into stage tables and fact loading.
- Implemented and managed Snow pipe to automate continuous data ingestion from Azure Data Lake Storage (ADLS) into Snowflake.
- worked with different Snowflake features during the development process.
- Created clone objects to maintain Zero-copy cloning.
- Involved in Peer review of code.
- Involved the promoted from DEV code to UAT environments and approve the users then moving to code production.
- Take complete ownership in releases and documentation of release plans.
- Involving in release activities and support for production release.
- Root cause analysis for production issues and fixing the issue quickly as part of sev2.

Application development Specialist

- Participated in User meetings, gathering requirements, discussing the issues to be resolved.
- Performed Data Analysis and Translated user inputs into ETL design docs.
- Participated in Design Reviews of Data model and Informatica mapping design.
- Extensively used Informatica cloud for extraction, transformation and loading process.
- Analyzed the STM sheet for mapping between source and target columns, prepare the mappings for it.
- Implemented SCD type2 using checksum functionality for the dimensions.
- Design, Development, Testing and Implementation of ETL Processes using Informatica cloud
- Handled and developed complex informatica cloud mappings, task, task flows and scheduled and also Developed Data Synchronization task, data Replication tasks, dynamic mapping task.
- Scheduled, and monitored all batch jobs using control-M scheduler.
- Bulk loading from the external stage (AWS S3), internal stage to snowflake cloud using the COPY command.
- used SNOW PIPE for continuous data integration from the S3 bucket.
- Created clone objects to maintain Zero-copy cloning.
- Optimized ETL mappings by applying performance techniques to reduce the time for data loading into stage tables and fact loading.
- worked with different Snowflake features during the development process.
- Involved the promoted from DEV code to UAT environments and approve the users then moving to code production.
- Take complete ownership in releases and documentation of release plans.
- Involving in release activities and support for production release.
- Root cause analysis for production issues and fixing the issue quickly as part of sev2.

• Biogen – Pharma Life Science

Senior Data Engineer

03/2018 03/2021

- Interacted with customer to gather the Requirements and business logics for designing and developing various applications through ETI tool informatica (Clarity OTL, PCSV, IQC).
- I have implemented some of the applications (Synapse, P360, PLM) by using Denodo data virtualization ETL Tool.
- Involved in customer business calls and gathering the requirements and explaining them clearly to the offshore members and coordinating with team members and helping them in any issues and review the code and unit test results.
- Implemented initial and incremental loads.
- Design, Development, Testing and Implementation of ETL Processes using Informatica cloud.
- Developed Informatica Cloud mappings, Data Synchronization task, data Replication task using IICS.
- Involved in Peer review of code.
- Involved the promoted from DEV code to UAT environments and approve the users then moving to code production.
- Take complete ownership in releases and documentation of release plans.
- Involving in release activities and support for production release.
- Root cause analysis for production issues and fixing the issue quickly as part of sev2.

Level3 Communication

Application development Senior Engineer

11/2013 03/2018

- Interacted with customer to gather the Requirements and business logics for designing and developing Billing, Finance data marts.
- Involved conduct daily status meetings with onshore (SME's) co-coordinators to gather requirements and help in resolution of their tasks and update the daily status report to client.
- Involved in the end-to-end life cycle of the project for Billing/Finance/Order marts (analysis, Designing, coding, unit testing, UAT, Pre-& Postproduction release activities).
- Involved in code migration from one environment to another as part of UAT.
- Involved in critical month end activities in finance area where finance recon reports generating from accounting billing.
- Implemented initial and incremental loads.
- Root cause analysis for production issues and fixing the issue quickly as part of sev2.

Education

- MCA (Master of computer science) Sri Venkateshwara University Tirupati.

CERTIFICATION

- Informatica Product Certified Professional (PowerCenter Data Integration 10: Developer, Specialist Certification Certificate NO: 067
- DP-900: Microsoft Azure Data Fundamentals.
