

VARADA KEERTHI SANKAR
INFORMATICA POWERCENTER DEVELOPER
EMAIL: SANKAR.VARADA@GMAIL.COM
PH: +91 8919899411

To pursue a challenging career in Data Engineering and ETL development where I can leverage my expertise in Informatica, SQL, and data integration to deliver efficient business solutions. I aim to contribute to organizational growth through optimized data processes while continuously enhancing my knowledge of emerging technologies in the IT sector.

EXPERIENCE SUMMARY

- Currently working with Infosys Limited, Hyderabad.
- 3.6+ years of experience of working in the IT industry.
- 3.6+ years of progressive experience as an Informatica PowerCenter Developer, with expertise in BMC Control-M, UC4, and Oracle SQL.
- Proven ability to work collaboratively as a team player with excellent communication and interpersonal skills.

EXPERIENCE DETAILS

- Designed, enhanced, and optimized Informatica mappings and transformation logic within sessions and workflows, resulting in faster ETL processing, improved data accuracy, and streamlined integration across multiple enterprise systems.
- Optimized error-handling processes in workflows, increasing SLA compliance rate to 99.5% for critical data transfers.
- Created and managed batch jobs in BMC Control-M from Informatica workflows, ensuring timely and reliable execution of business processes.
- Scheduled, monitored, and modified Control-M jobs as per evolving business needs, reducing manual interventions.
- Performed proactive data validation and monitoring using Oracle SQL and Teradata, improving root cause analysis and reducing data-related issues.
- Utilized UNIX/Linux commands to validate server status and troubleshoot in both non-production and production environments, improving system uptime and operational efficiency.
- Collaborated with cross-functional teams to analyse recurring failures, implement corrective measures, and ensure smooth project delivery.

TECHNICAL SKILLS

- **ETL Tools:** Informatica PowerCenter (Mappings, Transformations, Sessions, Workflows)
- **Cloud Tools:** Basics of Informatica Intelligent Cloud Services (IICS), Informatica Data Management Cloud (IDMC), Azure Data Factory (ADF)
- **Job Scheduling & Automation:** BMC Control-M, UC4 (Job Creation, Scheduling, Monitoring, Alterations)
- **Databases:** Oracle SQL, Teradata (Data Validation, Query Optimization, Data Monitoring)
- **Operating Systems:** UNIX/Linux (Server Validation, Troubleshooting, Shell Commands)
- **Data Integration & Optimization:** ETL Debugging, Error Resolution, Workflow Optimization.
- **Soft Skills:** SLA compliance, Root Cause Analysis, Team Collaboration, Communication

EMPLOYMENT DETAILS

Organization	Designation	Duration
Infosys Limited	Senior Systems Engineer	24 th MARCH 2022 to 29 th SEP 2025. (serving Notice period)

PROJECT EXPERIENCE

Project	
Client	Pacific Life Insurance Company
Description	Pacific Life Insurance company offers insurance services. It provides Life insurance, annuities, pension, mutual funds, real estate investment services. Pacific Life Insurances serves customers in the Unites States.
Tools & Technologies	Informatica PowerCenter, IICS, Oracle SQL, BMC Control-M, UNIX
Role and Responsibilities	- Designed, enhanced, and optimized Informatica mappings, transformations, sessions, and workflows, improving ETL performance and streamlining data integration across enterprise systems. - Monitored daily Oracle Data Warehouse loads in non-production and production environments, ensuring SLA compliance for business-critical processes. - Resolved issues during daily ETL load processes, reducing downtime and improving system reliability. - Created and scheduled batch jobs in BMC Control-M from Informatica workflows, automating recurring processes and reducing manual effort. - Performed proactive data validation and monitoring using Oracle SQL and Teradata, reducing data-related issues. - Leveraged UNIX/Linux commands to validate server status and troubleshoot issues across environments, improving uptime and operational efficiency. - Generated weekly and monthly reports and ad hoc extracts to support business decision-making and analytics. - Improved error-handling processes in workflows, increasing SLA compliance rate to 99.5% for critical data transfers.

Project	
Client	Pacific Gas and Energy
Description	The Pacific Gas and Electric Company (PG&E) is an American investor-owned utility (IOU). Pacific Gas and Electric Company (PG&E) provides natural gas and electric service to residential and business customers in northern and central California.
Tools & Technologies	Informatica PowerCenter, IDMC, Oracle SQL, UC4, UNIX, Teradata

Role and Responsibilities	- Designed and developed software solutions by analysing business requirements, ETL Informatica system flows, and data usage. - Deployed workflows and sessions in Informatica production environments, achieving on-time delivery with zero post-deployment defects. - Resolved issues by performing root cause analysis and implementing fixes within the SDLC, reducing recurring production incidents. - Automated and scheduled Informatica jobs using UC4, ensuring robust data validation with test cases and scenarios. - Enhanced Teradata performance through code optimization and error resolution, reducing query execution time. - Created detailed technical documentation (flowcharts, diagrams, layouts, and code comments), improving knowledge transfer and team onboarding.
----------------------------------	--

EDUCATION DETAILS

Qualification	Year of Passing	Board / University	Institute	%Marks
B. TECH	2020	VEL TECH University	VEL TECH Rangarajan Dr. sagunthala R&D Institute of Science and Technology	73%
XII	2016	STATE BOARD OF INTERMEDIATE EDUCATION	ADITYA JUNIOR COLLEGE, Narasapuram,	91%
X	2014	STATE BOARD OF SECONDARY SCHOOL EDUCATION	ADITYA SCHOOL, Narasapuram	92%

PERSONAL DETAILS

Date of Birth : 07th AUGUST 1999
Address : Gayathri Nagar, Hyderabad, Telanaga-500018

DECLARATION

I hereby declare that all the information provided above is true and correct to the best of my knowledge and belief.

Place:
Hyderabad.
