SENIOR CONSULTANT | ORCAPOD
CONSULTANCY LTD.

PROFESSIONAL SUMMARY

Informatica Admin and Developer Lead with 13+ years of experience in ETL development, administration, and production support across healthcare, energy, and insurance domains. Strong expertise in Informatica PowerCenter and Informatica IDMC (IICS, CDGC, MDM, IDQ), with hands-on experience in cloud platforms (AWS, Azure, GCP). Proven track record in cloud migrations, performance tuning, production stability, and stakeholder management. Experienced in Linux/Windows administration, vulnerability remediation, and supporting enterprise data platforms with a primary focus on Informatica ecosystem.

KEY ACHIEVEMENTS

- **Cloud Migration:** Migrated 40+ websites to DXC MPC & Informatica PowerCenter from on-premises to AWS Cloud, configuring 30+ EC2 instances and CloudWatch monitoring ensuring zero data loss and high availability.
- **ETL Optimization:** Redesigned mappings to cut performance time from 5+ hours to <1 hour.
- **Onshore Client Engagement:** Led a team of 5 as an ITIL consultant during the onshore assignment in Nottingham, UK, ensuring seamless delivery of IT services and adherence to best practices. Streamlined client and stakeholder communication, enabling clearer project alignment and improved decision-making processes.
- **Disaster Recovery Leadership:** Coordinated a cross-functional team to execute Disaster Recovery during Hurricane Harvey in the US, ensuring minimal downtime.
- **Streamlined Change Process:** Developed standardized templates for change requests, ensuring consistency and adherence to ITIL guidelines. Monitored key metrics such as change success rate and downtime, using insights to further refine the process and improve outcomes.
- **Awards & Recognitions:** Twice honoured with Infosys RISE INSTA awards for delivery excellence.

CERTIFICATIONS

Microsoft Certified: Azure Fundamentals - AZ900

Google Cloud Certified: Associate Cloud Engineer (Mar 2026)

EXPERIENCE

Senior Consultant | Contract – Capgemini Via Orcapod | Dec 2025 - Present

- Administer and support Informatica IDMC platforms including IICS, CDGC, MDM, and IDQ.
- Manage Rundeck orchestration workflows for job scheduling, automation, and incident handling.
- Perform Linux and Windows server administration including patching, access control, and system hardening.
- Execute vulnerability remediation by applying security patches and ensuring compliance.
- Handle certificate lifecycle management including renewals and deployments.
- Administer and support K2View platform for data operations.
- Provide operational support across Azure and GCP environments.
- Collaborate with DevOps teams for deployments and environment setup.
- Perform incident management, root cause analysis, and production support.

Technology Lead | Infosys | Hyderabad | Jan- 2022-Nov 2025

- Designed and developed ETL workflows using Informatica PowerCenter.
- Worked on IICS-based cloud data pipelines.
- Optimized ETL performance using partitioning and pushdown optimization.
- Automated processes using Unix shell scripting.
- Managed code migrations via CI/CD pipelines.
- Conducted unit testing, code reviews, and ensured data quality compliance.

Technology Analyst/Change & Release Manager | Infosys | Nottingham & Hyderabad | Sep 2019 - Dec 2021

- Migrated 40+ environments to DXC cloud from on-premise servers.
- Assisted in the planning, design, testing, troubleshooting and deployment of physical and virtual server environments.
- Installation, build, configuration, and security of IIS websites. Automated tasks using Windows PowerShell and optimized application performance.
- Defined and improved the audit process. Monitored and reviewed the execution of periodic audits.
- Conducted Pre-CAB and CAB meetings with stakeholders; held end-to-end responsibility on planning, scheduling, and managing changes and releases.
- Worked with Support, Code Deployment and Continuous Improvement teams to ensure seamless IT project delivery service.

Production Support Engineer | Infosys | Hyderabad | Jun 2014-Aug 2019

- Managed Informatica administration: migrations, repository/integration service setup, rollback. Conducted performance tuning, optimization, and capacity planning for Informatica environments.
- Migrated Informatica PowerCenter (10.x) & middleware applications from Windows servers to AWS cloud instances.
- Created & maintained AWS EC2 instances, S3 buckets, EBS volumes, monitored via CloudWatch.
- Provided 24/7 production support for Middleware applications and Tidal job scheduling.
- Conducted DR tests, patching activities, incident management and application deployments.
- Monitored application health and created customized knowledge scripts and jobs in NETIQ AppManager Control Center.

Research Analyst | Infosys | Hyderabad | Oct 2012-Jun 2014

- Installed and administered Informatica PowerCenter on Linux; handled deployments and rollbacks.
- Extracted and transformed data from Oracle, Salesforce, Flat files using Informatica mappings.
- Impact analysis and identifying dependencies for each application to enable migration of Informatica repository from a VM Server (Informatica 8.6.1) to a Physical Server (Informatica 9.0.1).
- Delivered training to 200+ professionals on Informatica administration and configuration.
- Installed SAP BO, built universes and generated Business Intelligence reports.

TECHNICAL SKILLS

ETL Tools	Informatica PowerCenter (9.x,10.x), IICS/IDMC
Cloud Platforms	Amazon Web Services, Azure Fundamentals, GCP
DevOps & CI/CD	Jenkins, GitHub, Bitbucket, Jira, Confluence
Framework	ITIL/ITSM
Scripting	PowerShell, Unix
Databases	SQL server, Oracle, Netezza, Sybase

Ticketing Tools	ServiceNow, BMC Remedy
Schedulers & Monitoring	Tidal Enterprise Scheduler, Rundeck, NetIQ Monitoring Suite
Other Tools & Utilities	Microsoft IIS, Serena Dimensions, SAP Business Objects, Citrix XenApp Center, MS Azure, Putty, WINSCP, HP ALM, DBeaver, K2View

EDUCATION

Bachelor of Science in Computers from Osmania University, Hyderabad.
