

RESUME

SUMMARY

Final-year CSE student with foundational knowledge in data science and machine learning, looking to apply academic skills in a professional environment.

EDUCATION

B.Tech – Computer Science Engineering

VIT Vellore | CGPA 7.4 | 2024

TECHNICAL SKILLS

Languages: Python, SQL (basic)

Libraries: pandas, NumPy, Matplotlib

ML: Linear/Logistic Regression, Decision Trees

Tools: Jupyter Notebook, Git (beginner)

PROJECTS

1. Customer Churn Prediction (scikit-learn)

- Trained logistic regression model; achieved 78% accuracy
- Dataset: Kaggle Telecom dataset

2. EDA on IPL Dataset

- Cleaned data using pandas, visualised trends with seaborn

INTERNSHIP

Data Analyst Intern – Infosys Springboard (Virtual, 2023, 6 weeks)

- Completed SQL and Python modules
- Built a sample dashboard in Excel

COURSES

- ML by Andrew Ng (Coursera) – in progress
- Python for Data Science – Simplilearn (Certificate)

SOFT SKILLS

Teamwork, Willingness to learn, Problem-solving
